

Résumé
Edmon Mtanious Salloum
Faculty of petroleum Engineering
Syrian Private University
Edmon.Salloum@spu.edu.sy

BIODATA:

Edmon Salloum is PhD holder from Gubken Insitute for Oil & Gas in Russian Federation. He is an associate professor at The Syrian Private University.

EDUCATION:

1994 Ph.D. in Petroleum Engineering, Gubken Insitute for Oil & Gas, Russian Federation.
1984 Petroleum Engineering, Al-Baath University, Homs, Syria.

HONORS AND AWARDS:

None

EMPLOYMENT EXPERIENCE:

2017 to date Dean of petroleum engineering faculty, Syrian Private University.
2011-2017 Head of reservoir engineering department, petroleum engineering faculty, Syrian Private University
2009-2010 Vice dean for scientific and administrative affairs, faculty of musical education, Al-Baath University.
2003-2009 Education staff, faculty of chemical and petroleum engineering, Al-Baath University.
1996-2003 Director of research and graduate studies, Al-Baath University.
1994-1996 Dr. Eng. in SPC, constructing and operating natural gas gathering & processing stations.
1994-1996 Lecturer of practical part of some subjects, faculty of chemical and petroleum engineering, Al-Baath University.

RELEVANT PROFESSIONAL EXPERIENCE:

None.

COMMITTEE MEMBERSHIP

None.

PUBLICATIONS, TRANSLATIONS & CONTRIBUTIONS:

1. Books:

2008 Engineering of natural gas extraction, faculty of chemical and petroleum engineering, Al-Baath University.

2. Articles:

- 2018 Using correlation analysis and empirical mathematical models for estimating oil reserves from oil reservoirs in Syrian oil fields.
- 2015 Study the effect of the magnetic field on the reverse emulsion's behavior of Syrian heavy oil. Al-Baath University Journal, Syria.
- 2015 Improve the rheological properties of Syrian heavy crude oil using some of the local industrial waste. Al-Baath University Journal, Syria.
- 2015 Avoidance Slowing movement sucker rods throw lifting viscose oil by beam pump at SAZBA fields, Al-Baath University Journal, Vol. 30.
- 2008 Study The Effect of Magnetic Field on the Protection of Acidic Equipments Against Corrosion, Al-Baath University Journal, Syria.
- 2008 Scales treatment in oilfield water injection system, Al-Baath University Journal, Vol. 30.
- 2007 Studying the negative effect of free gas on beam pump fullness factor used in producing oil in Romilan fields, Al-Baath University Journal, 2005 Syria.

CONFERENCE PAPERS:

- 2018 Scientific Symposium entitled "integration of geological and petroleum studies for exploration and exploitation of gas and oil fields, Al-Baath University, Homs, Syria.
- 2009 Syrian Egyptian Oil and Gas Conference, Al-Baath University, Homs, Syria.
- 2007 Syrian Egyptian Oil and Gas Conference, Suez, Egypt.

PUBLIC LECTURES:

- 2005 Administrative framework and scientific relationships between petroleum departments in petroleum companies, engineers syndicate, Al Thawra fields' directorate.

FOREIGN LANGUAGES:

English: good.

Russian: excellent.
